OPTIONS

ROOF TYPE

Sliding panoramic roof	A full-size sliding panoramic tinted glass roof, designed to provide abundant light and space, plus high solar protection. An electric sunblind extends for extra shade or privacy.
------------------------	---

ROOF RAILS

Black roof rails	<p>Roof rails facilitate easy fitment of cross bars for roof carrying. Pre-set positioning points ensure cross bars are fixed in optimum position for weight distribution and dynamics.</p> <p>Maximum payload is 100kg. Maximum payload equals the load capacity of the roof mounted accessory.</p> <p>Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio systems, if fitted.</p>
------------------	--

EXTERIOR LIGHTING

Matrix LED headlights with signature DRL	The Matrix LED headlights with Signature DRL enable an Adaptive Driving Beam. By splitting the main beam into vertical strips, the adaptive beam maximises the number of high beam sections for ultimate visibility, while casting a shadow over oncoming traffic to help to prevent dazzling. The adaptive beam is also able to optimise the light distribution to suit the driving conditions of town, country, motorway or bad weather.
--	--

SIGNATURE GRAPHIC

Signature graphic (with interior storage)	Defender's signature graphic demonstrating its strength and proportions. Also includes interior storage.
---	--

CONSOLE CONFIGURATION

Front centre console refrigerator compartment	Defender's seat configuration options include a centre console with refrigerator compartment, so you can chill drinks on any journey.

INFOTAINMENT		
Wi-Fi Enabled with Data Plan	With Wi-Fi Enabled with data plan*, you'll be able to keep in touch with friends and family, and keep everyone entertained with video streaming. Even when you are on the road less travelled. Wi-Fi uses the external antenna for the best possible connection.	
	*Fair use policy applies. Standard 1 year subscription.	

SAFETY AND SECURITY		
Intrusion sensor	The Intrusion Sensor offers enhanced theft-protection, using ultrasonic sensors to detect any intrusion into the cabin area when the vehicle is locked.	

When the alarm is activated, the car emits an acoustic warning and the hazard warning lights are automatically switched on.

Locking wheel nuts	Protect your wheels with custom designed high-security Chrome locking wheel nuts.
Secure Tracker Pro	Integrates authentication technology into the key fob. An alert will be sent within minutes to the Stolen Vehicle Tracking Centre if your car is stolen with non authorised keys. Includes service subscription for the warranty period.

EXTERIOR PROTECTION

OCTA Mud Flaps	<p>Mudflaps are a popular upgrade that reduce spray and enhance the level of protection to the paintwork from debris and dirt whilst complementing the vehicle's exterior design. With split line detail, these mudflaps feature both Narvik gloss black and grained matt black finishes. OCTA Mud Flaps includes:</p> <p>OCTA Front Mud Flaps OCTA Rear Mud Flaps</p>
Carbon Fibre Twin Raised Air Intakes	<p>Ideal when driving in dusty or sandy conditions, the twin raised air intakes help protect the engine by taking in cleaner air from an elevated position, above the bonnet, and therefore reducing the amount of dust particles taken into the air filter. Manufactured from carbon fibre with a Narvik gloss black painted finish, they feature exposed chopped carbon fibre and bronze Defender lettering.</p>

INTERIOR

Loadspace Rubber Mat	<p>The loadspace synthetic rubber mat is a waterproof mat, tailored specifically to protect the rear loadspace from muddy or wet items. The mat is Land Rover branded, has a non-slip surface, retaining lip and is easily removed for cleaning. The mat also has a very useful bumper protector, which protects the bumper from scuffs and scratches while loading and unloading the vehicle. The liner can be stowed under the mat or detached when not in use.</p>
Deep-sided Rubber Mats - RHD	<p>For the ultimate in footwell protection, this set of synthetic rubber mats contains deep-sided rubber mats for the first row and standard rubber mats for the second row. Perfect for containing sand, mud, water or snow from driver's and passenger's feet when returning to the vehicle. The mats are available in Ebony with a Bright finish metal, Land Rover branded ingot and the front mats follow the slope of the footwell for added protection. Both the first and second row mats attach securely to the floor with retention clips.</p>
Integrated Air Compressor	<p>The integrated air compressor can be used to both inflate and deflate to pre-set defined pressures. Designed for adjusting tyre pressures as well as to inflate bicycle tyres with Schrader valves, air beds and other inflatable items such as the inflatable waterproof awning. Permanently integrated into the loadspace, and with an Eiger Grey finish it complements other loadspace trim features, with minimal impact on storage space. The hose is extendable to reach all tyres easily and comes in a highly visible, bright orange finish to minimise trip hazards in low light. The easy to use dial and digital display can be set to required pressure and includes three nozzles attachments to suit a variety of applications. The hose is 5m, self-coiling and is provided in a Land Rover branded, hard wearing 600D nylon black bag with a zipped opening and carry handle for convenient storage. It also has a carabiner for secure storage to a 'D' loop.</p>

Portable Rinse System	Designed to be used outside the vehicle, the portable rinse system provides a convenient solution for rinsing outdoor equipment such as muddy boots, bikes and wetsuits before loading. Depending on the setting selected, this portable rinse system will deliver a minimum of two minutes of continuous water flow through a shower hose style attachment. Without the need for batteries or external power, the system utilises pressure captured when filling from a tap, and an integrated hand pump allows the user to pressurise if filling the water tank away from home. Featuring a Land Rover branded cover and handle, with an additional stowage bag it can be secured to the loadspace 'D' loops during transit.
-----------------------	--

WINCH ACCESSORIES

OCTA Winch Mounting Kit	The winch mounting kit is required for fitment of the remote control electric winch and includes remote control electric winch, winch cradle, Zircotec black winch cover and crush cans.
-------------------------	--

Accessories are dealer fit options and exclusive of labour costs.
